

Revenue Cycle Management Services

Since 2002, we are focused on enabling you to achieve maximum billing reimbursement through correct coding, quick filing, aggressive follow up of denials and underpayments and keeping close watch on A/R.

When you transition billing to us, we plan transition to ensure no dip in collections during transition period. In addition to taking over current claims, we review every single past unpaid claim prioritizing those that may be closer to timely filing limits, follow up with payers, re-file and appeal as needed. With InfiCare, you will stay focused on growth while we take care of your billing.

Here is our actual performance data for some specialties

For Physical Therapy practices 94.7% insurance collections within 30 days and 98.1% within 60 days of patient visit

For Rheumatology practices 90.5% insurance payments were within 30 days and 97.6% within 60 days of date patient was seen.

For Family practices 90.9% insurance payments were within 30 days and 98.1% within 60 days of patient visit.
